

# META-GEN

## SPF-30 Eye Cream

Unightly bags under the eyes are one of the visible signs of aging. Refresh and restore the youthful appearance of eyes with **meta-gen SPF-30**, a new patented ingredient. Based on advanced peptide technology, **meta-gen SPF-30** dramatically reduces the appearance of chronic bags under the eyes.

Various studies show that **meta-gen SPF-30** targets the main causes that contribute to the formation of bags or puffiness under the eyes.

The activity of its distinct composition of components has been demonstrated by in vitro and in vivo studies.

- Prevents leakage of fluids by reducing capillary permeability
- Eliminates excess fluids to relieve the puffiness of surrounding tissue
- Enhances firmness to reduce slackening of the skin
- Minimizes inflammation to prevent tissue damage

### To use

Every day after cleansing and toning, gently pat a small amount onto the brow bone and beneath the eye.
