

# META-GEN™

A WORLD OF HEALTH

## Sculpt Gel

A revolutionary, scientific breakthrough for increasing muscular activities and reducing warm up time. **Sculpt Gel** will enhance your muscular development and increase fat burning while exercising.

**Sculpt Gel** provides safe, visible, and extraordinary results with no adverse side effects!

Sculpt Gel was designed to increase oxygen intake in the muscles. This is accomplished by utilizing blood flow enhancers combined with nitric oxide. The skin absorbs the nitric oxide at a faster rate when blood flow is increased. This in turn increases the activities in the muscles and reduces the warm up time and the time to build your muscles.

### Applications

Apply **Sculpt Gel** directly to the muscle area you want to exercise or to the whole body. The amount of gel to use will depend on personal desired effect. Simply use **Sculpt Gel** 5 to 10 minutes before starting your routine.

### Indications

May feel temporary warm sensation and tightness in the skin. This will subside within a very short time.

### Active Ingredients

De-ionized Water, Glycerin, Nitric Oxide, Methyl Nicotinate, Citrus Aurantium, Peg-8 (and) Bupleurum Falca Extract (and) Coenzyme A, Yohimbe Hydrochloride, Forskolin, Usnic Acid, Aminophylline, L-Carnitine, L-Tyrosine, Carbomer, Citric Acid, Grape Fruit Extract, Sodium Hydroxide.
