

Tiro de Brasil™

This specially blended drink was developed with the help of Brazilian natives (especially women) who use it regularly to purify their bodies and enhance their sexual drive. It contains 12 different herbs and roots that each perform a unique and specific function. Together, these herbs and roots act synergistically to magnify their efficacy.

Many studies have shown that this formula works in the following way: First week through the second week, the blend will purify your system from toxins (yellowish urine and pungent smell will be noticed). After the second week a feeling of energy and the ability to do things with less exhaustion. Also, you will notice your sexual performance will be different. Much better stamina and easier repetitions will be achieved.

Dr. Van der Kuil from the Netherlands gave a sample to a lady who three years before had hysterectomy surgery. She complained about bad odor since then and none of the drugs that were given to her by doctors were able to eliminate the problem. A week after taking this blend, she called dr. Van der Kuil thanking him for helping her get rid of the problem.

This is not a 30 minutes enhancement product. **It** is a daily supplement to be used for long term cleansing, purification, constant energy and healthy sexual drive and stamina.

Recommended Dose: **SHAKE WELL.** NOTE: On the first day of use, drink 2 oz. then once a day, loosen the measuring compartment cap and gently squeeze the bottle till the liquid reaches the half ounce level. Pour into a cup and drink. You will see the results in two weeks or less. .This liquid is designed as a supplement. It is not intended to replace your doctor visit.

KEEP REFRIGERATED AFTER OPENING.
